

State-of-the-Art SurPeel CA[®] Tubing Peelers Now available in more sizes & a variety of kits

The SurPeel[®] line of tubing peelers is without question the state-of-the-art when it comes to preparing PE tubing for electrofusion welding. As a result, the industry has asked for more sizes and kit options—Georg Fischer Central Plastics has responded. GFCP is pleased to announce the latest additions to the SurPeel[®] line. This brochure provides the current status of all sizes and kit options, and identifies sizes yet to come.

Features	Benefits
Controlled advance with threaded drive.	Prevents skipping.
Sandvik hardened knife steel cutting blades.	Blades stay sharp for a very long time.
Quick release ratchet.	Operator time saver - no reverse threading required.
Anodized aluminum body and serviceable components.	Will not corrode and all wearing parts are replaceable.
Mandrels re-round out-of-round tubing.	Can adapt to minor imperfections in tubing wall. Near perfect peel on coil or straight tubing. Will accommodate various wall thicknesses.
Floating blades.	Consistent peeling depth.
Directly opposed dual cutting blades.	Speeds up peeling process.
