

C156

The Model **C156** Manual Squeeze Off Tool is designed to squeeze 1" to 4" PE pipe.

Similar to the C100, the **C156** features 6-sided, positive locking, indexable gauge plates, aircraft grade aluminum squeeze bars, chrome plated steel side shafts and a coated feed screw, reducing corrosion and friction. This tool can be operated with the detachable torque bar or with a ratchet on the integral hex at the top of the feed screw. The unique swing-out / lock-in bottom bar design allows for quick and easy access to the pipe even in confined spaces, and the detachable stabilizing bar provides added stability during the squeeze process.

The **C156** also includes a standard grounding spike, and custom gauge plates are available upon request.

Standard Gauge Plate Settings

- 1" IPS (SDR 11)
- 1-1/4" (SDR 10, 11, 11.5)
- 1-1/2" (SDR 11)
