

C200

The model **C200** Remote Squeeze Off Tool is designed to squeeze 1/2" to 2" PE pipe safely and effectively.

This tool is constructed almost entirely of aircraft grade aluminum alloys, allowing for a lightweight, strong and versatile tool. The jaws flat bars with radiused edges provide center springs on either side of the jaws to ensure the pipe is properly aligned every time.

The **C200** incorporates a collapsible fixed handle and a detachable rotating handle for ease of storage. The tool also features a rotating gauge plate, 5/8" hex drive for use in confined spaces, and a convenient carrying handle located at the balance point.

The **C200** also offers a standard grounding spike, and custom gauge plates are available upon request.

Standard Gauge Plate Settings

1/2" CTS (SDR 7)
3/4" IPS (SDR 11)
1" CTS (SDR 11, 11.5)
1" IPS (SDR 11)
