

1-1/8" Hex 40 lb. Demolition Hammer with AHB and UVP

H65SD3

metabo **HPT**
DURABILITY FIRST

- **AHB construction (Aluminum Housing Body)** increases the life of the tool by combining a strong aluminum outer housing with a plastic inner housing to reduce vibration and improve safety
- **UVP (User Vibration Protection):** greatly reduces vibration for comfortable extended use and fewer vibration related injuries
- Compatible with multiple **1-1/8" Hex shank** demolition bits for different applications
